Summary

- Supply Chain, Inventory Management, Demand Planning, and Procurement professional with an MBA, CSCP Candidate, and 10 years of experience driving end-to-end supply chain and financial transformation across Fortune 50 client environments, including Microsoft, Google, Meta, Costco, and Starbucks.
- Proven track record of managing \$400M inventory operations, reducing surplus inventory by \$90M, recovering \$35M in distressed assets, and improving Inventory Record Accuracy (IRA) to 98% through data-driven forecasting, ERP optimization, and cross-functional leadership.
- Expertise in inventory optimization, demand & supply planning, procurement, logistics, S&OP, CPFR, and warehouse operations, delivering measurable improvements in service levels, inventory accuracy, and operational efficiency.
- Advanced proficiency in SAP (S/4HANA, MM, BW, GUI), Microsoft Dynamics 365/AX/GP, Kinaxis RapidResponse, Oracle NetSuite, Power BI, SharePoint, Tableau, SQL, and Python to transform complex supply chain data into executive-level insights.
- Recognized for leading cross-functional teams up to 10 professionals, driving multi-million-dollar cost savings, optimizing enterprise inventory performance, and delivering strategic initiatives across complex global supply chains.

Core Competencies

Strategy & Planning: End-to-End Supply Chain Management & Data Analytics | Demand & Supply Planning | S&OP & Integrated Business Planning (IBP) | CPFR (Collaborative Planning, Forecasting, and Replenishment)

Operations & Logistics: Strategic Sourcing, Procurement & Vendor Relationship Management (VRM) | Inventory Optimization & Lifecycle Management | Warehouse Management & Facility Layout Optimization | Inbound & Outbound Logistics | Asset Recovery & Obsolescence Management

Technical Skills

ERP & Data Management: SAP (GUI, MM, S/4HANA, BW), SAP Ariba Buying, Microsoft Dynamics (365, AX, GP, CRM), Oracle NetSuite, Kinaxis RapidResponse, Basware, QuickBooks, Salesforce, Workday, IBM Tririga, Crunchtime

Analytics, BI & Reporting: Microsoft Power BI, Python, Tableau, Google Analytics, SPSS, EViews, ACADiA, SQL

AI Productivity & Tooling: Google Gemini, OpenAI ChatGPT, Codex, Anthropic Claude, Google Antigravity, Google AI Studio, Cursor, Grok, Prompt Engineering, Advanced Prompting, AI-Assisted Data Analysis, Workflow Automation

Project & Workflow Management: Microsoft Project, Asana, Jira, Trello, Smartsheet, Zoho, Client Central

Productivity, Collaboration & Digital Tools: Microsoft 365, SharePoint, Google Workspace, Prezi, Google AdSense

Design & Web Development Tools: GitHub, Cloudflare, Vercel, Adobe Photoshop, Adobe Dreamweaver, Adobe Illustrator, WordPress

Experience

Avolta

10/2025 - Present

Inventory Manager

Lead and mentor a cross-functional team of 10 warehouse associates and inventory specialists to direct end-to-end inventory controls, warehouse operations, procurement, demand planning, and receiving workflows.

- Direct end-to-end inventory planning, procurement and logistics strategy for a high-volume \$400M revenue business unit, establishing robust stock controls to consistently guarantee 95%+ product availability across all warehouse-to-store operations.
- Analyzed inventory movement, ETAs, and demand signals to reduce stockouts, driving Inventory Record Accuracy (IRA) from a baseline up to a consistent 98% and improve service levels across warehouse-to-store operations.
- Analyze forecast vs. actual consumption trends using variance analysis to improve replenishment accuracy and inventory flow.
- Orchestrate end-to-end receiving operations, coordinating with 50+ vendors and warehouse leadership to streamline inbound logistics.

Gold & Gems Jewelers (Family Business)

12/2024 - Present

Inventory Manager (Consultant)

Continue advising the family business on inventory optimization, procurement strategy, vendor management, and operational improvements in a consulting capacity while serving full-time at Avolta.

- Managed inventory planning, stock reconciliation, inventory valuation, and cycle counts for high-value merchandise while ensuring accurate financial records.
- Implemented inventory control processes, analyzed inventory performance, and improved accuracy to reduce inventory discrepancies and optimize inventory levels.
- Supported procurement, purchasing, supplier coordination, inventory reporting, and operational analysis to improve business decision-making and maintain optimal product availability.

Experience

Zones LLC.

01/2021 - 11/2024

Senior Demand Planner

Supervised and coached a team of 6 demand planners in executing advanced statistical forecasting models, deep-dive variance analysis, and multi-channel inventory optimization cycles for enterprise-level accounts.

- Led end-to-end data analysis for demand planning and inventory optimization across 50+ enterprise clients, including Microsoft, Google, Meta, Costco, and Starbucks managing datasets exceeding \$130M in inventory value.
- Built and maintained forecasting and inventory models in Kinaxis RapidResponse and Microsoft Dynamics 365, AX, improving forecast accuracy and driving a \$90M reduction in surplus inventory.
- Designed Power BI and Tableau dashboards to track demand trends, aging inventory, recovery pipelines, and client-level KPIs, enabling data-backed decisions.
- Orchestrated cross-functional S&OP cycles and CPFR, aligning sales forecasts, supply constraints, and corporate finance targets across enterprise accounts.

Netkom Technologies

08/2019 - 01/2021

Supply Chain & Operations Lead

Managed a multi-disciplinary team across procurement, inventory, and warehouse operations to align global sourcing contracts, replenishment models, and shift-level material tracking.

- Owned demand, supply, and inventory data analysis for S&OP meetings, ensuring alignment between sales forecasts, procurement plans, and production schedules.
- Developed D365 based demand planning and inventory tracking models, improving visibility into stock levels, reorder points, and service-level risks.
- Analyzed historical sales and consumption data to improve forecast accuracy and replenishment decisions, reducing procurement costs by 10%.
- Reviewed forecast performance trends during S&OP and CPFR cycles, adjusting models and assumptions to improve planning accuracy.
- Negotiated supplier contracts and implemented process improvements that generated \$200K+ annual savings and strengthened supply assurance.

Ufone

05/2017 - 07/2019

Supply Chain Finance Analyst

Managed supply chain financial controls, workflow automation, and inventory valuation for a \$2M+ telecom asset portfolio, bridging the gap between supply chain operations and corporate finance.

- Conducted large-scale data analysis merging financial metrics with telecom demand planning, inventory optimization, and supply chain forecasting.
- Monitored and optimized inventory valuation and landed cost tracking for \$2M+ in telecom assets, driving cost-basis accuracy and cross-departmental alignment.
- Prepared analytical dashboards integrating key supply chain operational metrics (inventory turns, stock aging) with financial KPIs and working capital impact.

Projects

Avolta - Warehouse Digital Transformation & Layout Overhaul

Spearheaded the physical restructuring of a distribution center into a standardized aisle-and-bin zoning matrix, while migrating inventory tracking from a legacy manual process into SAP and directly training a team of 10 on system data entry and strict cycle-count protocols.

Zones LLC - Inventory Optimization & Asset Recovery

Led advanced ERP statistical forecasting models for Fortune 50 enterprise accounts, driving a \$90M reduction in surplus stock and freeing up critical working capital, while successfully recovering \$35M in at-risk, decommitted assets for reinvestment in high-velocity product lines.

Zones LLC - Advanced Planning System (APS) Implementation

Spearheaded the migration of enterprise inventory logic from Microsoft Dynamics AX to Kinaxis RapidResponse, replacing reactive min/max models and automating dynamic demand-planning workflows.

Education

National University of Computer and Emerging Sciences 08/2017 - 12/2018

MBA | GPA: 3.6 / 4.0

Major: Supply Chain Management | Minor: Finance | Bronze Medalist for academic excellence.

Iqra University 02/2013 - 12/2016

Bachelors of Business Administration (Honors) | GPA: 3.44 / 4.0

Major: Accounting and Finance | Scholarship Recipient for outstanding performance.

Certifications

CSCP - ASCM (In Progress - Candidate) | Project Management Certificate - Google | Financial Engineering and Risk Management - Columbia University | Corporate Finance, Financial Accounting, Quantitative Modeling - University of Pennsylvania
